Liberate the Bar! Queer Nightlife, Activism, and Spacemaking is a multimedia exhibition that sheds light on the intricate relationship between nightlife, activism, and creative expression across space and time. The exhibition is not a historical overview, but instead presents clusters of archival materials such as newspapers, photographs, flyers, and videos alongside works by contemporary artists to meditate on past and present struggles and triumphs of queer life. Set to open on the 50th anniversary of Stonewall, the exhibition emphasizes the significant and underrecognized contributions of queer, transgender, non-binary, and gender non-conforming artists and activists to contemporary society.
